Forward Looking Statements

This Presentation includes forward-looking statements about TSLX that involve substantial risks and uncertainties. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about us, our current and prospective portfolio investments, our industry, our beliefs, and our assumptions. Words such as "anticipates," "expects," "intends," "plans," "believes," "seeks," "estimates," "would," "should," "targets," "projects," and variations of these words and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance and are subject to risks, uncertainties, and other factors, some of which are beyond our control and difficult to predict, that could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Such statements are also subject to a number of uncertainties and factors outside TSLX's control. Such factors include, but are not limited to the risks, uncertainties and other factors we identify in the section entitled "Risk Factors" in our offering memorandum and filings we make with the Securities and Exchange Commission. Opinions expressed are current opinions as of the date of this Presentation. Should TSLX's estimates, projections and assumptions or these other uncertainties and factors materialize in ways that TSLX did not expect, actual results could differ materially from the forward-looking statements in this Presentation, including the possibility that investors may lose a material portion of the amounts invested. No representation or warranty, express or implied, is made as to the accuracy or completeness of the information contained in this Presentation, and nothing shall be relied upon as a promise or representation as to the performance of any investment. Investors are cautioned not to place undue reliance on such forward-looking statements and should rely on their own assessment of an investment.
